If you're new to a low-carb diet, here are 85 health low-carb meal ideas to get you excited and well into the groove of your new lifestyle!

42 Lunches And Dinners

Low-Carb Pizza

Who doesn't love pizza? And if you're on a low-carb diet, you probably miss it. However, there are great alternatives to the popular meal. The main issue with pizza is the carb filled crust, so swap it out with portabella mushroom caps, cauliflower pizza crust (recipes online) or coconut flour pizza crust (recipes online) and top with your favorite sauce, veggies, cheese and meats.

Eggplant Pizza

Another way to enjoy pizza is to swap the flour crust with thin sliced eggplant on which you can put sauce, ground beef, and shredded cheese as toppings.

Salmon With Pesto Sauce

This is a really simple recipe, but it's still very fancy and delicious. You just need to place the salmon in a baking dish and spread pesto sauce, salt, and pepper on it and bake in the oven. You can serve this meal with broccoli or a hearty salad. Pesto sauce recipes are plentiful online.

Low-Carb Burgers

Who says you can't eat a hamburger while on a low-carb diet? You can! Ditch the buns and get them lettuce or kale wrapped instead. Many fast food restaurants offer this option, and you can certainly do it at home.

Steak And Garlic Kale

Steak is a great protein option on low carb diets, and you can have it with many different vegetable sides. Garlic kale is one of those, simply place about 2 cups of fresh cut up kale in a pan with 1 tablespoon of butter and 1 or 2 crushed cloves of garlic and sauté for a few minutes until the kale is softened. Sprinkle with salt and enjoy.

Mozzarella Meatballs

You've probably started imagining how good this meal must be as soon as you read the title. These delicious meatballs are easy to make and are strictly low carb.

Add 2 to 3 cloves of crushed garlic, 2 tablespoons of fresh crushed parsley, 1 teaspoon of salt and pepper and 1 cup of shredded mozzarella to 1 pound of hamburger meat and mix together.

Make your meatballs and bake in the oven or grill in a pan in olive oil. You can also add any spices you like including oregano and basil.

Serve them with broccoli, asparagus, or other vegetables.

Low Carb Lasagna

Enjoy lasagna by simply replacing the pasta noodles with slightly softened thick cut strips of zucchini. Build your lasagna as usual, but instead of pasta noodles layer the zucchini strips instead.

Low Carb Spaghetti

Buy a spiral vegetable cutter and spiral cut zucchini, soften it slightly in boiling water, drain, and pour your sauce, and parmesan cheese on top. Zucchini works great with both red and white sauces.

Shrimp And Cauliflower Salad

This salad is the perfect substitute for a meal that would otherwise contain rice. Instead of the carb-filled rice, you simply chop up and lightly cook cauliflower, add a little shrimp, and you're good to go.

Portabella Burgers

Many vegetarian burgers contain portabella mushrooms instead of meat. However, the idea behind this low-carb recipe is to use the mushrooms as buns to enjoy a low carb burger delight.

Spaghetti Squash

Spaghetti squash is undoubtedly one of the most popular meals among those who follow a low-carb diet. It is an incredibly delicious meal that mainly contains squash as the substitute for pasta.

Chicken And Mashed Cauliflower

Skip the potatoes and eat your chicken with mashed cauliflower instead. For a simple, yet tasty salad simply put leftover roast beef or cold cut roast beef from the deli and shiitake mushrooms over any greens of choice, add blue cheese dressing or any dressing you prefer.

Turkey Lettuce Wraps

Let's be honest, Brussels sprouts are not among the most popular vegetables. Nevertheless, when you make them this way, you will immediately fall in love with them.
